Important information

What's an Accountable Care Organization (ACO)?

Berkshire Fallon Health Collaborative (BFHC) is a MassHealth Accountable Care Organization (ACO) Partnership Plan. It's made up of Berkshire Health Systems (BHS), several Berkshire County community physician practices, Community Health Programs (CHP) and Fallon Health. Fallon Health is a leading health care services company that has been caring for MassHealth members for over 45 years.

An ACO is a health plan that's accountable to provide you with high-quality care. An ACO helps you meet your health goals. ACOs have groups (networks) of Primary Care Providers (PCPs) and other providers. They work together to meet your overall health care needs. In an ACO, your PCP and their team is responsible for working with you and your other providers. This coordination will help you get the right care at the right time.

What's the service area for BFHC?

You must live in the BFHC service area to be enrolled in BFHC. It includes the cities and towns in Berkshire County. For a complete list of cities and towns, see your *Member Handbook*.

About this provider directory

This provider directory is arranged in sections.

- On pages vii-x is an alphabetical listing of Massachusetts hospitals with emergency room services located in all areas of the state. If you need to access emergency care, you can go to any of these hospitals without a referral. An alphabetical listing of BFHC's contracted network hospitals can be found on page 1893.
- On pages xi-xviii is an alphabetical listing of statewide behavioral health (mental health and/or substance abuse) emergency services program (ESP) providers located in all areas of the state. If you are having a behavioral health crisis/emergency, you can access any of these services programs 24 hours a day, seven (7) days a week. No referral is necessary for emergency behavioral health services.
- On pages 1606-1620 is an alphabetical listing of all the towns where BFHC PCPs are located. There's an alphabetical listing of BFHC PCPs arranged by primary care type. Each provider's entry includes the following applicable information:

His or her name	Handicapped accessibility	Languages spoken
Address	Open, closed or limited panel	Medical interpreter services
Phone number	Interpreter services	Office hours
The hospital(s) to which he or she can admit patients	Areas of special experience, skills and training	Braille and sign language service
		Cultural competency training

- Pages 1621-1863 include an alphabetical listing of all BFHC contracted specialty providers. Each provider entry includes the same information as listed above.
- Pages 1-1605 include an alphabetical listing of all BFHC contracted behavioral health providers. Each provider entry includes the same information as listed above, as well as licensing information.

The information contained in this book is current as of the date of printing. For the most current listing, you can visit fallonhealth.org/Berkshires to search for providers online. Simply click on “Find a doctor,” and in the Advanced Search section, select BFHC in the "Search a specific plan's network."

Copies of this provider directory are available in Spanish, large print and other alternate formats like Braille by calling Fallon’s Customer Service Department at 1-855-203-4660 (TRS 711), Monday through Friday from 8 a.m. to 6 p.m. You can also call this number to have this Provider Directory read to you in English or in other languages, or if you are looking for a particular physician who is not listed here.

Some providers are accepting a limited number of new patients. We have indicated this status with a lowercase “L” (l) following these providers’ names. However, it’s always best to check with each provider to be certain he or she is accepting new patients.

Below is a legend to explain the statuses indicated throughout the directory.

Status	Explanation
l	Accepting a limited number of patients; call provider office
c	Closed to new members
cc	Cultural competency training
h	Handicapped accessible
i	Interpreter services
b	Braille and sign language services
mt	Medical interpreter services
tp	Available by mass/public transportation
v	Available for routine vision services

Choosing a primary care provider (PCP)

In an ACO, your PCP and their team is responsible for working with you and your other providers to manage your basic health care needs. Each family member covered by BFHC must select a PCP. You can choose from among these types of PCPs:

- A provider of internal medicine for adults
- A provider of family practice for adults and children
- A provider with an OB/GYN specialty listed in the primary care provider section (for women only)
- A pediatrician for children (usually up to age 18)

If you need to change your PCP, you can do so by calling Fallon Customer Service at 1-855-203-4660 (TRS 711), or by visiting fallonhealth.org/Berkshires. To search for providers online, simply click on “Find a doctor,” and in the Advanced Search section, select BFHC in the "Search a specific plan's network."

Specialty care providers and referrals

When you see specialists at BHS or CHP, you don’t need a referral from your PCP. If you wish to see a specialist who is in the BFHC network, but who is not a BHS or CHP specialist, then you must get a referral from your BHS or CHP PCP. For example, if you need to see an allergist, a doctor that takes care of you when you have allergies and who is not a BHS or CHP specialist, your PCP will arrange a referral for you. Generally, you may not set up an appointment with a specialist without first consulting your PCP. In some cases, you

don't need to get a referral. For example, you can receive behavioral health services, OB/GYN services, family planning services and eye exams without calling your PCP first.

Family planning services can be obtained from any contracted BFHC provider, including your PCP or an OB/GYN provider located at a community health center, multi-specialty group practice or individual office, without a referral. This includes birth control methods as well as exams, counseling, pregnancy testing and some lab tests. Call Fallon Customer Service at 1-855-203-4660 if you need help finding a provider for family planning services.

If you need behavioral health services, you may choose any provider in BFHC's behavioral health network. You can make the appointment on your own or call Carelon Behavioral Health Strategies, LLC at 1-888-877-7184 (TTY: 711), Monday through Friday 8 a.m. to 6 p.m., to help you find a provider. Or, visit them online at www.beaconhealthoptions.com. You may also ask for assistance from your PCP.

Preauthorization may be required from your PCP for acupuncture services. If you are seeking these acupuncture services for detoxification treatment, please contact Carelon Behavioral Health at 1-888-877-7184 (TTY: 711), Monday through Friday 8 a.m. to 6 p.m., to help you find a provider.

To search for specialty care or behavioral health providers online, simply click on "Find a doctor," and in the Advanced Search section, select BFHC in the "Search a specific plan's network."

See the section entitled "We'll help you pick a primary care provider" in your *Member Handbook* for information about scheduling health care appointments as well as information about referrals and authorizations.

What are Community Partners (CPs)?

Community Partners are community-based health care and human service organizations that partner with MassHealth Accountable Care Organizations (ACOs), like Berkshire Fallon Health Collaborative (BFHC) and support MassHealth's commitment to:

- Improve member experience, continuity and quality of care
- Promote collaboration to address social determinants that impact an individual's stability and wellbeing
- Strengthen communications and care coordination across health, behavioral health, long term services and supports, and social service needs
- Support individuals with disabilities to live in the community independently

There are two types of CPs: Long-Term Services and Supports CPs (LTSS CPs) and Behavioral Health CPs (BH CPs). LTSS CPs provide care coordination support for people with complex long-term services and support needs. This includes members with physical disabilities, traumatic brain injury, intellectual or developmental disabilities and others. BH CPs provide appropriate treatment and recovery support for individuals with complex behavioral health conditions. *Please note that members can only access CP providers if they are identified as being eligible.* The CPs included in the BFHC network are listed on page 1891.

Emergency and post-stabilization services

Emergency and post-stabilization services do not require referral or authorization. When you have an emergency health condition, you should go to the nearest hospital emergency room or call your local police department, fire department, or 911. You can find a list of statewide hospital emergency rooms beginning on page vii of this directory. For behavioral health emergencies, you may also call your local behavioral health emergency services program (ESP) provider. A list of statewide ESP's is located in this directory beginning on page xi. You should notify your health care provider about your emergency as soon as possible. You or someone else should call to tell your PCP about your emergency care within 48 hours and, if you experienced a behavioral health emergency, someone should contact your behavioral health provider

within 48 hours. For more information on emergency benefits and plan procedures for emergency services, see the section titled “We’ll help you pick a primary care provider” in your *Member Handbook.*

Getting care when you travel

You are covered for emergency services, post-stabilization services and urgent care services, such as injuries and sudden illnesses, wherever you travel, even if you are outside of Fallon’s service area. If you become seriously sick or hurt while you are away, go to the nearest doctor or hospital emergency room or call 911. Be sure to call your PCP, and, if applicable, your behavioral health provider, within 48 hours of receiving emergency, post-stabilization or urgent care while you travel. Routine care when you travel is not covered. For more information on getting care when you travel, consult your *Member Handbook* in the section titled “Getting care when you travel.”

If you get a bill

As long as you go to a BFHC network provider or have BFHC’s approval to go to an out-of-network provider, your provider cannot bill you for a service that is covered under the BFHC MassHealth ACO Partnership Plan. But, if you get a bill for services you got from a provider, contact the Fallon Customer Service Department at 1-855-203-4660. A representative will help you with the bill. For more information on what to do if you get a bill, see the section titled “Important things to remember about BFHC” in your *Member Handbook*.

Care Connect

There is no such thing as a bad question—especially when it comes to your health. Medical questions can arise at any time, day or night. Monday through Sunday—even holidays. Care Connect gives you access to nurses who can answer health questions. They can also help you decide if you should go to the emergency room. Care Connect can give you:

- Health education and at home treatment options for less severe conditions
- Referral to your doctor or other clinical office for non-urgent care.
- Assistance with scheduling in office or virtual doctor appointments
- After hours paging of your doctor for urgent needs
- Assistance with Urgent Care appointments
- Referral to the Emergency Room when needed

Care Connect is a valuable resource provided to members, but **should not replace a visit with your primary care provider (PCP)**. Depending on the problem, Care Connect may help you schedule an appointment with your PCP after the call.

Care Connect is available 24 hours a day/7days a week. Call 1-800-609-6175 (TDD/TTY: 1-800-848-0160).

Questions?

If you:

- Cannot find your provider in this directory.
- Would like to have this directory read to you.
- Would like a copy of this directory printed in a larger type size.
- Would like this directory in Spanish.
- Have questions about anything contained in this directory.

Please call our Customer Service Department Monday through Friday, 8 a.m. to 6 p.m. at:

1-855-203-4660 (TRS 711)

10 Chestnut St.• P.O. Box 15121 • Worcester, MA • 01615-0121 • fallonhealth.org/Berkshires

To learn about BFHC and your other health plan options, call the MassHealth Customer Service Center at 1-800-841-2900 (TDD/TTY: 1-800-497-4648) Monday through Friday, 8 a.m. to 5 p.m.

■ Massachusetts hospitals with emergency services

Below is a listing of Massachusetts hospitals that offer emergency room and post-stabilization services, twenty four (24) hours a day, seven (7) days a week. If you need to access emergency care, these hospitals are available for you to use. You can go to any hospital listed below for emergency care without a referral. Fallon Health's participating hospitals are listed in the section of this provider directory titled "Hospitals", beginning on page 1893.

Children's Behavioral Health Initiative (CBHI) services

Listed here are the CBHI services in Massachusetts. CBHI is an interagency undertaking by the Executive Office of Health and Human Services and MassHealth whose mission is to strengthen, expand and integrate Behavioral Health Services for Enrollees under the age of 21 into a comprehensive system of community-based, culturally competent care. **NOTE: Additional CBHI Services can be found in Community Service Agency and Emergency Service Provider sections of this directory.**

Behavioral Health Providers

Behavioral health services range from outpatient/home services to inpatient and 24-hour diversionary services programs. To get services and/or find a provider, you can call Carelon Behavioral Health Strategies, LLC at 1-888-877-7184 (TTY: 711). In a behavioral health emergency, call 911, go to an emergency room or contact your local emergency services program (ESP) provider. A statewide list of ESPs can be found in this directory under the heading "Behavioral health emergency services program (ESP) providers." Always notify your behavioral health provider and your PCP as soon as possible after an emergency.

Counseling providers

If you think you should see a behavioral health provider, you should first speak with your primary care provider (PCP). However, you can choose to make an appointment yourself with a behavioral health provider. No prior authorization is required for the first 12 visits. However, after that you would need prior authorization from the plan. If you need help finding a behavioral health provider, please call 1-888-877-7184 (TTY: 711). All outpatien behavioral health providers offer 24-hour on-call coverage.
