

Fallon Health

2027 Formulary (List of Covered Drugs or “Drug List”)

**PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION
ABOUT THE DRUGS WE COVER IN THIS PLAN**

Formulary ID: 00027183 Version: 9

This formulary was updated on 9/25/2026. For more recent information or other questions, please contact Fallon Health Customer Service at 1-800-325-5669 (TTY users should call 711), 8 a.m. to 8 p.m., Monday through Friday (7 days a week, Oct. 1 through March 31), or visit fallonhealth.org/medicare.

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this Drug List (formulary) refers to “we,” “us,” or “our,” it means Fallon Health. When it refers to “plan” or “our plan,” it means Fallon Medicare Plus.

This document includes a Drug List (formulary) for our plan which is current as of September 25, 2026. For an updated Drug List (formulary), please contact us. Our contact information, along with the date we last updated the Drug List (formulary), appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2028, and from time to time during the year.

What is the Fallon Health formulary?

In this document, we use the terms Drug List and formulary to mean the same thing. A formulary is a list of covered drugs selected by Fallon Medicare Plus in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. Fallon Medicare Plus will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a Fallon Medicare Plus network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

Can the formulary change?

Most changes in drug coverage happen on January 1, but Fallon Medicare Plus may add or remove drugs on the formulary during the year, move them to different cost-sharing tiers, or add new restrictions. We must follow the Medicare rules in making these changes. Updates to the formulary are posted monthly to our website here: fallonhealth.org/medicare.

Changes that can affect you this year: In the below cases, you'll be affected by coverage changes during the year:

- **Immediate substitutions of certain new versions of brand name drugs and original biological products.** We may immediately remove a drug from our formulary if we're replacing it with a certain new version of that drug that will appear on the same or lower cost-sharing tier and with the same or fewer restrictions. When we add a new version of a drug to our formulary, we may decide to keep the brand name drug or original biological product on our formulary, but immediately move it to a different cost-sharing tier or add new restrictions.

We can make these immediate changes only if we're adding a new generic version of a brand name drug, or adding certain new biosimilar versions of an original biological product, that was already on the formulary (for example, adding an interchangeable biosimilar that can be substituted for an original biological product by a pharmacy without a new prescription).

If you're currently taking the brand name drug or original biological product, we may not tell you in advance before we make an immediate change, but we'll later provide you with information about the specific change(s) we've made.

If we make such a change, you or your prescriber can ask us to make an exception and continue to cover for you the drug that is being changed. For more information, see the section below titled, "How do I request an exception to the Fallon Health formulary?"

Some of these drug types may be new to you. For more information, see the section below titled, "What are original biological products and how are they related to biosimilars?"

- **Drugs removed from the market.** If a drug is withdrawn from sale by the manufacturer, or the Food and Drug Administration (FDA) determines that the drug should be withdrawn for safety or effectiveness reasons, we may immediately remove the drug from our formulary and later provide notice to members who take the drug.
- **Other changes.** We may make other changes that affect members currently taking a drug. For instance, we may remove a brand name drug from the formulary when adding a generic equivalent or remove an original biological product when adding a biosimilar. We may also apply new restrictions to the brand name drug or original biological product, or move it to a different cost-sharing tier, or both. We may make changes based on new clinical guidelines. If we remove drugs from our formulary, add prior authorization, quantity limits and/or step therapy

restrictions on a drug, or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 30 days before the change becomes effective. Alternatively, when a member requests a refill of the drug, they may receive a 30-day supply of the drug and notice of the change.

If we make these other changes, you or your prescriber can ask us to make an exception for you and continue to cover the drug you've been taking. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below entitled, "How do I request an exception to the Fallon Health formulary?"

Changes that won't affect you if you're currently taking the drug. Generally, if you're taking a drug on our 2027 formulary that was covered at the beginning of the year, we won't discontinue or reduce coverage of the drug during the 2027 coverage year except as described above. This means these drugs will remain available at the same cost-sharing and with no new restrictions for those members taking them for the remainder of the coverage year. You will not get direct notice this year about changes that don't affect you. However, on January 1 of the next year, such changes would affect you, and it's important to check the formulary for the new benefit year for any changes to drugs.

The enclosed formulary is current as of September 25, 2026. To get updated information about the drugs covered by Fallon Medicare Plus, please contact us. Our contact information appears on the front and back cover pages. All members will be mailed an update to their printed formulary that details all non-maintenance formulary changes when they occur. The formulary and any addenda will also be available online at fallonhealth.org/medicare.

How do I use the formulary?

There are 2 ways to find your drug within the formulary:

Medical Condition

The formulary begins on page viii. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they're used to treat. For example, drugs used to treat a heart condition are listed under the category, Cardiovascular Agents. If you know what your drug is used for, look for the category name in the list that begins on page viii. Then look under the category name for your drug.

Alphabetical Listing

If you're not sure what category to look under, you should look for your drug in the Index that begins on page 101. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you'll see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

Fallon Medicare Plus covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs work just as well as, and usually cost less than, brand name drugs. There are generic drug substitutes available for many brand name drugs. Generic drugs usually can be substituted for the brand name drug at the pharmacy without needing a new prescription, depending on state laws.

What are original biological products and how are they related to biosimilars?

On the formulary, when we refer to drugs, this could mean a drug or a biological product. Biological products are drugs that are more complex than typical drugs. Since biological products are more

complex than typical drugs, instead of having a generic form, they have alternatives that are called biosimilars. Generally, biosimilars work just as well as the original biological product and may cost less. There are biosimilar alternatives for some original biological products. Some biosimilars are interchangeable biosimilars and, depending on state laws, may be substituted for the original biological product at the pharmacy without needing a new prescription, just like generic drugs can be substituted for brand name drugs.

For discussion of drug types, please see the Evidence of Coverage, Chapter 5, Section 3.1 “The ‘Drug List’ tells which Part D drugs are covered.”

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** Fallon Medicare Plus requires you or your prescriber to get prior authorization for certain drugs. This means that you’ll need to get approval from Fallon Medicare Plus based on specific criteria before you fill your prescriptions. If you don’t get approval, Fallon Medicare Plus may not cover the drug.
- **Quantity Limits:** For certain drugs, Fallon Medicare Plus limits the amount of the drug that Fallon Medicare Plus will cover. For example, Fallon Medicare Plus provides 2 capsules a day per prescription for *duloxetine*. This may be in addition to a standard 1-month or 3-month supply.
- **Step Therapy:** In some cases, Fallon Medicare Plus requires you to first try certain drugs to treat your medical condition before we’ll cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, Fallon Medicare Plus may not cover Drug B unless you try Drug A first. If Drug A doesn’t work for you, Fallon Medicare Plus will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page viii. You can also get more information about the restrictions applied to specific covered drugs by visiting our website. We’ve posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask Fallon Medicare Plus to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, “How do I request an exception to the Fallon Health formulary?” on page v for information about how to request an exception.

What are over-the-counter (OTC) drugs?

OTC drugs are non-prescription drugs that aren’t normally covered by a Medicare Prescription Drug Plan.

What if my drug isn’t on the formulary?

If your drug isn’t included in this formulary (list of covered drugs), you should first contact Customer Service and ask if your drug is covered.

If you learn that Fallon Medicare Plus doesn’t cover your drug, you have 2 options:

- You can ask Customer Service for a list of similar drugs that are covered by Fallon Medicare Plus. When you receive the list, show it to your doctor and ask them to prescribe a similar drug that is covered by Fallon Medicare Plus.

You can ask Fallon Medicare Plus to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the Fallon Health formulary?

You can ask Fallon Medicare Plus to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it's not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you wouldn't be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to waive a coverage restriction including prior authorization, step therapy, or a quantity limit on your drug. For example, for certain drugs, Fallon Medicare Plus limits the amount of the drug that we'll cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.
- You can ask us to cover a formulary drug at a lower cost-sharing level unless the drug is on the specialty tier. If approved, this would lower the amount you must pay for your drug.

Generally, Fallon Medicare Plus will only approve your request for an exception if the alternative drugs included on the plan's formulary, the lower cost-sharing drug, or applying the restriction wouldn't be as effective for you and/or would cause you to have adverse effects.

You or your prescriber should contact us to ask us for a tiering or, formulary exception, including an exception to a coverage restriction. **When you request an exception, your prescriber will need to explain the medical reasons why you need the exception.** Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can ask for an expedited (fast) decision if you believe, and we agree, that your health could be seriously harmed by waiting up to 72 hours for a decision. If we agree, or if your prescriber asks for a fast decision, we must give you a decision no later than 24 hours after we get your prescriber's supporting statement.

What can I do if my drug isn't on the formulary or has a restriction?

As a new or continuing member in our plan you may be taking drugs that aren't on our formulary. Or, you may be taking a drug that is on our formulary but has a coverage restriction, such as prior authorization. You should talk to your prescriber about requesting a coverage decision to show that you meet the criteria for approval, switching to an alternative drug that we cover, or requesting a formulary exception so that we'll cover the drug you take. While you and your doctor determine the right course of action for you, we may cover your drug in certain cases during the first 108 days you're a member of our plan.

For each of your drugs that isn't on our formulary or has a coverage restriction, we'll cover a temporary 30-day supply. If your prescription is written for fewer days, we'll allow refills to provide up to a maximum 30-day supply of medication. If coverage isn't approved, after your first 30-day supply, we won't pay for these drugs, even if you've been a member of the plan less than 108 days.

If you're a resident of a long-term care facility and you need a drug that isn't on our formulary or if your ability to get your drugs is limited, but you're past the first 108 days of membership in our plan, we'll cover a 31-day emergency supply of that drug while you pursue a formulary exception.

If you're a current member being admitted to or discharged from a long-term care facility, you'll be able to get an early refill on your medications if needed.

For more information

For more detailed information about your Fallon Medicare Plus prescription drug coverage, please

review your Evidence of Coverage and other plan materials.

If you have questions about Fallon Medicare Plus, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227) 24 hours a day/7 days a week. TTY users should call 1-877-486-2048. Or, visit [medicare.gov](https://www.medicare.gov).

Fallon Health formulary

The formulary that begins on the next page provides coverage information about the drugs covered by Fallon Medicare Plus. If you have trouble finding your drug in the list, turn to the Index that begins on page 101.

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., HUMIRA) and generic drugs are listed in lower-case italics (e.g., *amoxicillin*).

The information in the Requirements/Limits column tells you if Fallon Medicare Plus has any special requirements for coverage of your drug.

Abbreviation	Explanation
B/D	This prescription drug has a Part B versus Part D administrative prior authorization requirement. This drug may be covered under Medicare Part B or Part D depending upon the circumstances. Information may need to be submitted describing the use and setting of the drug to make the determination.
HI	Home Infusion. This prescription drug is covered under our medical benefit. For more information, call Customer Service at 1-800-325-5669 (TTY 711), 8 a.m. to 8 p.m., Monday through Friday (7 days a week, Oct. 1 through March 31), or visit fallonhealth.org/medicare .
LA	Limited Access. This prescription may be available only at certain pharmacies. For more information consult your Pharmacy Directory or call Customer Service at 1-800-325-5669 (TTY 711), 8 a.m. to 8 p.m., Monday through Friday (7 days a week, Oct. 1 through March 31).
MO	Mail-Order Drug. This prescription drug is available through our mail-order service.
NEDS	Non-Extended Day Supply. This drug is limited to a 30-day supply per prescription fill.
PA	Prior Authorization. Fallon Medicare Plus requires your provider to get prior authorization for certain drugs. This means that you'll need to get approval from Fallon Health before you fill your prescriptions. If you don't get approval, Fallon Health may not cover the drug.
PA NS	Prior Authorization for New Starts only. Fallon Medicare Plus requires a prior authorization for certain drugs for new prescriptions only. This means that if you're newly starting on this drug, you need to get approval from Fallon Health before you fill your prescriptions. If you don't get approval, Fallon Health may not cover the drug. Prior authorization isn't required if you've been previously filling this drug with Fallon Medicare Plus.
QL	Quantity Limit. For certain drugs, Fallon Medicare Plus limits the amount of the drug that Fallon Medicare Plus will cover. For example, Fallon Medicare Plus provides 2 capsules a day per prescription for <i>duloxetine</i> . This may be in addition to a standard 1-month or 3-month supply.
ST	Step Therapy. In some cases, Fallon Medicare Plus requires you to first try certain drugs to treat your medical condition before we'll cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, Fallon Health may not cover Drug B unless you try Drug A first. If Drug A doesn't work for you, Fallon Health will then cover Drug B.
