The following apply to your *Member Handbook/Evidence of Coverage*:

Deductible

Before the plan will begin to provide benefits for most covered services you must first meet a benefit period deductible. Each member must meet the per-member deductible unless the family deductible applies. The family deductible is considered met when any combination of members in a family reaches the family deductible amount.

The deductible does not apply to preventive care, including immunizations; health maintenance visits for adults and children, as well as those mammograms, cytological exams and tests associated with health maintenance visits; prenatal care; well child care, including vision and auditory screening; voluntary family planning; or nutrition counseling and health education.

A deductible carryover provision does not apply to this plan.

Your costs for covered services

Your deductible is **$2,000** if you elected individual coverage. Your deductible is **$4,000** if you elected family coverage. If you elect individual coverage, you must meet the individual coverage deductible amount. If you elect family coverage, you and your family must meet the family coverage deductible amount. The family coverage deductible is considered met when any combination of members in a family reaches the family deductible amount. Any one member in a plan that is subject to the family deductible who accumulates services totaling the minimum family deductible amount allowed under IRS guidelines in the applicable benefit period has met the deductible, and will receive benefits for covered services less any applicable copayments or coinsurance. The remaining members in a plan that is subject to a family deductible must fulfill the balance of the family plan deductible amount. The deductible does not apply to preventive care. A deductible carryover provision does not apply to this plan.

Out-of-pocket maximum

There is a limit to what you will have to pay for the covered health care services you receive during the benefit period. This is called your out-of-pocket maximum. Your out-of-pocket maximum includes your deductible plus any coinsurance and copayments you pay. Your out-of-pocket maximum does not include your premium charge or any costs you incur for health care services not covered by the plan. **Your out-of-pocket maximum is $7,050 if you elected individual coverage. Your out-of-pocket maximum is $14,100 if you elected family coverage.** The family out-of-pocket maximum is considered met when any combination of members in a family reaches the family out-of-pocket maximum amount.

Domestic partner coverage

You may include a domestic partner and his/her dependents under your family coverage. A domestic partner is defined as a partner of the same or opposite sex whom you have registered with your employer for eligibility for benefits, and have included under your family coverage for health insurance.

It Fits! ™ benefit

Your contract includes coverage for services provided under the It Fits! ™ program to a maximum of $150.
